furniture LCA

Newsletter #2

Empowering Furniture Companies with Life Cycle Assessment for Sustainable Practices (FURNITURELCA)

Project reference: 2024-1-PL01-KA220-VET-000253085 (E+)

Timeline: 01.12.2024 – 31.01.2027

Budget: 250 000 EUR

Coordinator: [Furnitruie sp. z o.o., Poland](#)

[LEARN MORE](#)

OBJECTIVES

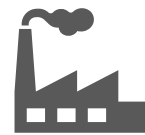

The project intends to give furniture SMEs (Small and Medium Enterprises) and VET (Vocational Education and Training) students the information they need to conduct lifecycle assessments that enable them to measure environmental consequences and make more environmentally friendly decisions. Along with learning how to get and utilize the Environmental Project Declaration, a formal declaration of product environmental effect, they will also learn how to quantify PEF (Product Environmental Footprint) and OEF (Organization Environmental Footprint).

OUR MAIN OUTCOMES

THE COLLECTION

We concentrated on gathering legislative rules, standards, scientific publications, and recommendations for environmental product analysis, eco-design, and eco-innovation in the furniture industry, assisting furniture employees and SMEs in understanding environmental reporting, interpreting EPD, and preparing LCA. This hub serves as a comprehensive repository of information about the environmental impact of furniture production. The information will be provided to users via the digital knowledge assistant.

MASTER GUIDE

Based on the Collection, we are creating detailed materials that reflect genuine furniture production settings for gaining trustworthy data documenting the manufacturing processes of different types of furniture. The end result will be well-explained, simple guidance through the LCA process, allowing users to develop competencies based on real case studies.
